

Polehampton Update

Wednesday 4th November 2020

Good afternoon Parents,

As you know we have a national lockdown starting tomorrow.

Schools and child care remain open, so we will be carrying on as we have been, with the breakfast club and after school club continuing too.

I appreciate that people may have concerns – please be assured that we follow the public health guidance and will adopt new measures should they be introduced.

Currently there has been little change which enables provision to be maintained as per last term – we continue to be stringent in all our restrictive measures.

To reflect the changing circumstances across the country, as well as to ensure we are doing all we can to ensure the good health within our school community, **from tomorrow (Thursday 5th November), for the period of the national lockdown, we politely request that parents to wear a mask in the playground when you bring or collect your child/ren.** We will review this along with any further guidance when lockdown ends, which is due to be on 2nd December.

We do understand that there will be some people in our school community who are exempt from wearing a mask.

Please continue

- to be careful and respect social distancing measures, particularly in areas that can be more congested
- to only have one adult bringing/collecting your child/ren to limit the numbers of people in our grounds

Thank you for your continued efforts, support and willingness to send your child to school during these unusual times. I hope we can all enjoy a healthy, interruption-free half-term.

Best wishes,

Miss Ball

Executive Headteacher
