

Year 1

Phonics Screening

A guide for parents.

What is Phonics?

Children are taught to read by breaking down (segmenting) words into separate sounds or 'phonemes'. They are then taught how to blend these sounds together to read the whole word.

Children in Key Stage 1 have a phonics lesson daily and they are encouraged to use these strategies to read and write in other lessons.

What is the aim of the check?

- The Phonics Screening Check is designed to confirm whether individual children have learnt phonic decoding (i.e. apply their knowledge of letter-sound relationships) and blending (i.e. the skill of joining individual speech sounds (phonemes) together to make a word) skills to an appropriate standard

- This 'mid-point' check will allow teachers to ensure that any gaps in children's knowledge is filled by the end of Year 1.

Key stage 1

Phonics screening check

Pupils' materials

When will the screening happen?

It is a requirement for every Year 1 child in the country to take the Phonics Screening Check in June.

Those Year 1 children who do not pass will have the opportunity to complete the check again in the summer of Year 2.

The results will be reported to parents.

What do we expect children to do?

- The check is very similar to tasks the children already complete during phonics lessons
- Children will be asked to 'sound out' a word and blend the sounds together, eg d-o-g - dog
- The focus of the check is to see which sounds the children know

THIS IS NOT A READING TEST

Example words

Section 2

Alien/Pseudo
words

var

slirt

weaf

pobe

Section 2

twice

gloom

turn

mode

Real words

How will the children
complete the check?

The children will complete
the check one at a time in
a quiet area of the school.

The screening will only
take 5-10 minutes for each
child to complete.

How can you help?

The way in which you learnt to read, is probably very different from the way we teach children to read now, so here is a quick guide to some of the things you can do to help you child in preparation for the Screening Check.

1. Remind your child to look for the following when faced with an unfamiliar word (real or alien/pseudo)
 - Look for any familiar digraphs first, then any trigraphs, then any split digraphs. What ever is left are single phonemes.
2. Encourage children to use sound buttons when breaking the words down.
 - A dot for a single phoneme, a small line for a digraph/trigraph and a hook for any split digraphs. These should all be placed under the letters in the word. (see next slide for information on sound buttons)
3. Play some online game
 - Please see the Phonics section on the school website for links to online games.

Using sound buttons

We use sound buttons to help children recognise the different parts of a word: single phonemes, digraphs, trigraphs and split digraphs.

buttons

single phoneme

lines

digraph or trigraph

hooks

split digraph

Using sound buttons

buttons

A button tells us that a grapheme (letter) makes an individual sound for example:

cat
● ● ●

lines

A line shows us that more than one grapheme (letter) joins together to make a new sound (digraph or trigraph) for example:

rain
● — ●

hooks

A hook, like a line, shows us that more than one grapheme (letter) joins together to make a new sound BUT those letters are split (split digraph) for example:

cake
● — ●

Useful websites

- Here are some links to helpful website that give more information on the teaching of Phonics:

Thank you

Thank you for your ongoing support.
Please do ask your child's teacher if
you have any questions.

Thank
You!
